METAL SURFACE MAINTENANCE

All LOST PROFILE metal surfaces are waxed. These metal surfaces are designed to age and patinate. Wear gloves when handling to avoid hand prints. Clear enamel coating is available on request. Enamelling does not stop the patination process, it just slows the process down.

DRIVERS & DIMMING

LOST PROFILE products are supplied with 0-10V dimmable LED drivers.

PHASE & DALI Dimmable drivers are available for some regions, upon request.

The location of the driver needs to be considered, whether in a ceiling cavity, in a wall cavity, or ideally in an accessible electrical cabinet.
